DUTECH SYSTEMS
Technology With Tomorrow Built In.

CAPABILITY STATEMENT

AI • CLOUD • DATA • SECURITY • ENGINEERING

MODERNISE TODAY. BUILD WHAT'S NEXT.

Dutech Systems helps government and enterprise organisations modernise technology, unlock the value of data, introduce AI and automation, and build secure, resilient digital platforms.

DUTECH AT A GLANCE

Founded in 2015, Dutech Systems is a global technology consulting and solutions company helping public- and private-sector organisations solve complex business challenges through AI, cloud, data, cybersecurity, intelligent automation and modern application engineering. **Dutech Systems India Private Limited** runs the group's engineering and delivery centre in Hyderabad.

2015 Established

250+ Professionals

USA • INDIA • AUSTRALIA

Boston • Austin • Hyderabad • Melbourne

OUR CAPABILITIES & TECHNOLOGY

AI & INTELLIGENT AUTOMATION

Generative AI • AI Engineering • Intelligent Automation • ML/MLOps • AI-enabled Applications

TECHNOLOGY: Azure AI • OpenAI • Python • ML/GenAI • LangChain • LLMOps • Power Platform • RPA

CLOUD & ENTERPRISE MODERNISATION

Cloud Migration • Application Modernisation • Cloud-native Architecture • Hybrid/Multi-cloud

TECHNOLOGY: Microsoft Azure • AWS • Google Cloud • Kubernetes • Docker • Terraform • VMware

DATA & ANALYTICS

Data Engineering • Integration • Analytics • Visualisation • Data Quality & Governance

TECHNOLOGY: Azure Data Platform • Databricks • Snowflake • SQL • Python • Spark • Power BI • Tableau

CYBERSECURITY

VAPT • Identity & Access • Infrastructure/Network Security • Security Engineering • GRC

TECHNOLOGY: IAM • SIEM/SOC • Pen Testing • Vulnerability Management • GRC • Network Security

DEVSECOPS & SRE

CI/CD • Release Automation • DevSecOps • SRE • Observability • Performance Engineering

TECHNOLOGY: Azure DevOps • GitHub • GitLab • Docker • Kubernetes • Terraform • Prometheus • Grafana

APPLICATION ENGINEERING

Web & Enterprise Apps • APIs • Microservices • Quality Engineering • Accessibility • Support

TECHNOLOGY: .NET • Java • Angular • React • Node.js • APIs • Microservices • Testing

MODERNISE → CONNECT → AUTOMATE → SECURE → OPERATE → EVOLVE

INDUSTRIES WE SERVE

Technology	Media	Food & Retail	Oil & Gas	Government & Public Sector	Finance & Insurance	Healthcare

SELECTED GLOBAL CLIENTS

DUTECH SYSTEMS
Technology With Tomorrow Built In.

PROOF. EXPERIENCE. DIFFERENTIATION.

REPRESENTATIVE CLIENT IMPACT

OIL & GAS
Cloud migration and application engineering, including Azure-based authentication and modernisation.

TECHNOLOGY
Cloud support, DevSecOps and digital modernisation for a major technology organisation.

GOVERNMENT
Modern application development using microservices and micro-frontend architectures for U.S. public-sector environments.

MEDIA
Vulnerability assessment, penetration testing and DevSecOps services for a global media organisation.

WHY DUTECH

ENGINEERING DEPTH
Cross-functional expertise spanning AI, cloud, data, cybersecurity, DevSecOps and modern application engineering.

SOLUTION-ORIENTED DELIVERY
Practical, cost-effective solutions designed around business outcomes rather than isolated technologies.

RAPID MOBILISATION
Ability to assemble and mobilise qualified project teams quickly for SOW and enterprise initiatives.

GLOBAL DELIVERY
Delivery model spanning Australia, India and the United States.

DIVERSE BY DESIGN
Certified diverse supplier with a strong Women in Technology and inclusive-workforce focus.

CONTINUOUS INNOVATION
Ongoing investment in programme management, engineering practices and technology innovation.
